The Core Competencies for Public Health Professionals (Core Competencies) represent a set of skills desirable for the broad practice of public health that professionals may want to possess as they work to protect and improve the nation's health. The Core Competencies offer a starting point for public health professionals in identifying professional development needs and developing training plans.

Competency Assessments for Public Health Professionals

3.3 Parameters. Parameters describe random vectors much as we might use height or age to describe a person. Formally, a parameter is a function that is applied to a random vectorâ€™s probability distribution. It may take on real, vector, or matrix values.

Open Standards for the Practice of Conservation lays out five main steps to an adaptive management project
cycle (see Figure 1). The Open Standards represent a compilation and adaptation of best practices and
guidelines across several fields and across several organizations within the conservation community. Since
the release of the initial Open Standards (updated in 2007 and 2013), thousands ...
