MAKING SENSE OF SCIENCE maybe the pursuit of recognition by his or her fellow scientists. The purity of this knowledge offered to put science into an unusual social role since no other knowledge could match its objectivity or detachment.

Making Sense of Science: Understanding the Social Study of

if science were like Hamburger Helper® , but science is complex and cannot be reduced to a single, prepackaged recipe. The linear, stepwise representation of the process of science is simplified, but it does get at least one thing right. It captures the core logic of science: testing ideas with evidence.

science you might have come across. While most books on the subject treat data science as a collection of techniques that lead to a string of insights, Murtaza shows how the

Getting Started with Data Science: Making Sense of Data

Do bees have a sense of smell? Dr. Karl von Frisch investigated that question in the early 1900s with these two experiments. Experiment 1 Dr. von Frisch set up a table with several identical cardboard boxes with removable covers. Each box had a small door hole for bees. Inside one box, he put a dish of sugar water that was scented with a fragrant oil.
