### **Beilstein Handbook of Organic Chemistry: 5th Suppl. Series**

Beilstein® handbook of organic chemistry is currently implemented as a database on STN, starting with the first part containing the heterocyclic substances. It is the intention of this paper to give an overview of the capabilities of this database on STN with special focus on the numeric features.

### **Numeric Features of the Beilstein Database on STN**

The Beilstein database is the largest database in the field of organic chemistry, in which compounds are uniquely identified by their Beilstein Registry Number. The database covers the scientific literature from 1771 to the present and contains experimentally validated information on millions of chemical reactions and substances from original scientific publications .
