Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Arts and culture help spark conversations, spur social change and make our community strong. But too many of our residents â€” including communities of color, immigrants and refugees, and people with disabilities â€” experience vast disparities in terms of access to publicly funded services, including arts and culture. RACC is committed to ensuring that everyone [â€”]
