

discourse and language learning pdf

Discourse (from Latin *discursus*, "running to and from") denotes written and spoken communications: . In semantics and discourse analysis: Discourse is a conceptual generalization of conversation within each modality and context of communication.; The totality of codified language (vocabulary) used in a given field of intellectual enquiry and of social practice, such as legal discourse, medical ...

Discourse - Wikipedia

A discourse community is a group of people who share a set of discourses, understood as basic values and assumptions, and ways of communicating about those goals. Linguist John Swales defined discourse communities as "groups that have goals or purposes, and use communication to achieve these goals". Some examples of a discourse community might be those who read and/or contribute to a particular ...

Discourse community - Wikipedia

academic discourse community™, while others have identified discourse communities within the academy, for example, palaeontologists or political scientists.

Language@Internet, 4, article 1 (2007) - This article describes a classification scheme for computer-mediated discourse that classifies samples in terms of clusters of features, or "facets". The

goal of the scheme is to synthesize and articulate aspects of technical and social context that influence discourse usage in CMC environments.

A Faceted Classification Scheme for Computer-Mediated

Editor's Note: This is a milestone article that deserves careful study. Connectivism should not be confused with constructivism. George Siemens advances a theory of learning that is consistent with the needs of the twenty first century.
