Do you think earthworms are cool creatures that are fun to play with? Or are they icky, creepy, slimy crawlies that you'd rather avoid? If you like to fish, you probably like them since they can help you reel in the big fish when used as bait. But what if you're a gardener? Anyone who spends time in ...

Feces (or faeces) are the solid or semisolid remains of the food that could not be digested in the small intestine. Bacteria in the large intestine further break down the material. Feces contain a relatively small amount of metabolic waste products such as bacterially altered bilirubin, and the dead epithelial cells from the lining of the gut. Feces are discharged through the anus or cloaca ...

Most fun is to make your own castings at home. Composting your own kitchen scraps, thus keeping them out of the landfill or sewage system (for those of us with disposals) is a small reward in a project that gives you a great soil amendment as well as a fascinating science lesson not necessarily just for kids.

Every year, the average citizen of a developed country produces about half a tonne of waste, thus waste management is an essential industry. Old waste management systems based on the collection of mixed/sorted waste and transporting it a long way to disposal sites has a significant negative impact on the environment and humans.
