The Department of Electrical Engineering and Information Technology launches its new study programme "Master of Science in Quantum Engineering" in fall 2019.

Department of Information Technology and Electrical

Stand Out as an Innovative Power Engineer. The Master of Science: Electrical Engineering program will prepare you for leading edge positions in industry in the areas of electric power, power electronics, motor drives, and electric machines.

Electrical Engineering: Power Engineering

Engineering is the creative application of science, mathematical methods, and empirical evidence to the innovation, design, construction, operation and maintenance of structures, machines, materials, devices, systems, processes, and organizations for the benefit of humankind. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more ...

The inherent specificity and electrochemical reversibility of enzymes poise them as the biorecognition element of choice for a wide range of metabolites. To use enzymes efficiently in biosensors, the redox centers of the protein should have good electrical communication with the transducing electrode, which requires either the use of mediators or tedious biofunctionalization approaches.
