### **Guidelines for Offshore Marine - G-OMO**

Thirteen offshore wind energy leases have been awarded to developers and BOEM is committed to working with our many stakeholders as we continue to lease the OCS for responsible renewable energy development activities.

### **BOEM Homepage | BOEM**

Current climate policy and issues of energy security mean wind farms are being built at an increasing rate to meet energy demand. As wind farm development is very likely in the Mediterranean Sea, we provide an assessment of the offshore wind potential and identify expected biological effects of such developments in the region. We break new ground here by identifying potential offshore wind ...

Bridge Mate Dynamic Positioning. The initial objective of MT was to develop a DP system that complied with the International Maritime Organization (IMO) guidelines for a DP 2 class system. Only sixteen months after the foundation of the company in 2002, the first vessel with a DP system from MT received its DP-2 notation from the American Bureau of Shipping (ABS).
