The invariant mass, rest mass, intrinsic mass, proper mass, or in the case of bound systems simply mass, is the portion of the total mass of an object or system of objects that is independent of the overall motion of the system. More precisely, it is a characteristic of the system's total energy and momentum that is the same in all frames of reference related by Lorentz transformations.

Invariant mass - Wikipedia

In particle physics, the strong interaction is the mechanism responsible for the strong nuclear force (also called the strong force, nuclear strong force, or colour force), and is one of the four known fundamental interactions, with the others being electromagnetism, the weak interaction, and gravitation. At the range of 10^{-15} m (1 femtometer), the strong force is approximately 137 times as ...

L'interazione forte può essere osservata in scala piccola fra quark a formare i protoni, i neutroni e altre particelle, e in scala grande (dove si parla propriamente di "forza nucleare forte") fra protoni e fra neutroni a formare il nucleo dell'atomo. Nel primo caso le particelle mediatrici dell'interazione sono i gluoni, nel secondo i pioni.

De Gibson Guitar Corporation is een Amerikaanse firma die onder meer gitaren bouwt. Ze specialiseert zich niet in een bepaald type (zoals de gitaarbouwer Martin die zich toelegt op de bouw van akoestische gitaren), maar biedt alle categorieën aan.. Kenmerkend voor de Gibson-gitaren is het gebruik van zogenaamde dubbelspoel-elementen (oftwel humbuckers), en dan in het speciaal de PAF humbucker ...

Gibson Guitar Corporation - Wikipedia

Akridge is also the primary source for the other line of argument, claiming that the shrinking of the sun has been measured. He bases this claim entirely on the results of Eddy & Boornazian (). Remarkably enough, it nevertheless appears as if he hasn't even read their paper – he does not refer directly to it, but only to a popularization (Lubkin 1980, see ref in Akridge 1980).

The Solar FAQ: Solar Neutrinos and Other Solar Oddities

10-snarige gitaar "Decacorde". Gitaarvariant met tien snaren, in 1826 door Ferdinando Carulli met Franse gitaarbouwer Pierre Ren  Lacote gepatenteerd. Vijf van de tien snaren waren bestemd om op gebruikelijke wijze met de linkerhand te bespelen, de overige vijf waren 'open' te bespelen bassnaren.

NEWS. There's another McMurdo webcam out there! In addition to the various USAP webcams available

here, a University of Oregon project has set up an underwater webcam known as the McMurdo Oceanographic Observatory (MOO). It is 70 feet deep, offshore of McMurdo Station, and it has several different cameras which can be seen here.. An interesting media update on the "race" between Colin O'Brady

En mecánica, el movimiento es un cambio de la posición de un cuerpo a lo largo del tiempo respecto de un sistema de referencia.. El estudio del movimiento se puede realizar a través de la cinemática o a través de la dinámica. En función de la elección del sistema de referencia quedarán definidas las ecuaciones del movimiento, ecuaciones que determinarán la posición, la velocidad y la ...

La naturaleza de partícula del electrón se demostró por primera vez con un tubo de Crookes. En esta ilustración, un haz de electrones proyecta el perfil en forma de cruz del objetivo contra la cara del tubo. [1]
