Petsec operations. Petsec has established and implemented this pre-startup review as part of its commissioning procedure when installing new facilities or making significant renovations to existing facilities. 2.0 Process This element addresses procedures and processes for all of the elements in its SEMS Program.

### **PRE-STARTUP REVIEW - Petsec**

The Project is designed to collect, transport, process and export (in liquefied form) natural gas in northern Mozambique. This process begins offshore, where natural gas will be extracted from gas reservoirs below the seafloor via subsea wells. The gas will be collected and transported to the onshore LNG Facility by pipelines.
