o INCTCM module: Process transactions interface This program processes material transactions following changes in any of the transactions form. For optimal processing speed the system manager responsibility should be used to tune the Inventory Manager. The initial setup for this is defaulted with a single target process setup.

### **Import material transactions using process transaction**

Inventory Controls Any combination of the four controls can be implemented for each item. Inventory controls are optional for all items~ Locator~ Revision~ Lot~ Serial Number Stock Locator / Locator Control~ Locators are optional structures within sub inventories. ~ Locators are the third level in the enterprise structuring scheme of Oracle Inventory.
