Prevention Tools What works, what doesn't 1. Knowing what works in prevention, and what doesn't, is vital to keeping young people from developing serious and life-long issues with addiction, as alcohol and other drug abuse remain the problem behaviors contributing to the most serious problems facing our communities today.

Although not listed as a criterion, it is assumed that a prevention program that works will not be harmful. The principle of "first, do no harm" ( primum non nocere ), or of at least taking all possible steps to minimize the risk of harm, is a fundamental aspect of many ethical systems in disciplines such as medicine, public health, and psychology.

### **Relapse Prevention Plan - Therapist Aid**

Relapse Prevention MAP ... MCES understands that relapse can best be prevented when consumers and providers work to-gether to understand the risks, the signs, the triggers, and the steps to be taken to head off relapse. My Action Plan for Relapse Prevention (MAP) is designed to facilitate this process.
