

promoting international energy security pdf

Promoting International Energy Security Book Description: Nigeria is an important oil producer, but security shortfalls impede oil production and new investment.

Promoting International Energy Security: Volume 4, The

To better examine the potential role of the Air Force in promoting international energy security, we conducted three exploratory studies. The first, documented here, addresses the Caspian and Turkey. The second addresses...

Promoting International Energy Security: Volume 2, Turkey

But the security of the supply is another matter. For a variety of reasons, the Air Force is not, by itself, able to ensure the worldwide energy supply. It can, however, contribute to its security through its relationships with and assistance to other nations, both direct and indirect.

Promoting International Energy Security: Volume 1

The sea lanes that supply Asia's energy needs are already vulnerable to geopolitical concerns and the threat of piracy. One approach to protecting them would be employ multiple U.S. military and government elements; a second would be to promote the capabilities of and cooperation among nations in the region.

Promoting International Energy Security | Download eBook

Nigeria and its neighbors in the Gulf of Guinea are important sources of petroleum for the Atlantic Basin (Figure 1.1). In 2010, production was about 3.1 million barrels per day (bpd), the bulk of which was exported (Energy Information Administration [EIA], 2011). This amount is 3.5 percent of the global output of liquid fuels. Proven reserves of crude oil in this region represent 3.3 percent ...

Promoting International Energy Security: Volume 4, The

The dramatic rise in oil prices in 2008 has increased attention on the sources of imported oil, the workings of the world oil market, and the potential problems of meeting future demand for liquid fuels. Energy security concerns often focus on the Middle East. But most of the world's oil and natural gas production occurs in countries outside that area.

Promoting International Energy Security. Volume 2: Turkey

This technical report is the first in a four-volume series examining U.S. Air Force roles in promoting international energy security. In this first volume, we examine the world oil market, energy security issues associated with petroleum, and how energy market and security considerations relate to Air Force operational planning.

DTIC ADA562952: Promoting International Energy Security

Promoting a Global Energy System for U.S. Security by Jan H. Kalicki A surge in oil and gas production in the United States signals a new era of energy security. But the United States will not achieve an energy independence unrelated to other parts of the world because world energy markets today are inextricably

interconnected.

Promoting a Global Energy System for U.S. Security

Security for Asia's major energy sea-lanes running from the Hormuz Strait, into the Indian Ocean, through the Malacca Strait to Singapore, and into the South China Sea currently lags behind the growing criticality of these waterways.
