Systems engineering is an interdisciplinary field of engineering and engineering management that focuses on how to design and manage complex systems over their Life cycles. At its core, systems engineering utilizes systems thinking principles to organize this body of knowledge. The individual outcome of such efforts, an engineered system, can be defined as a combination of components that work ...

Design and art. Today, the term design is widely associated with the applied arts as initiated by Raymond Loewy and teachings at the Bauhaus and Ulm School of Design (HfG Ulm) in Germany during the 20th century.. The boundaries between art and design are blurred, largely due to a range of applications both for the term 'art' and the term 'design'.
