This LDR circuit diagram shows how you can make a light detector. An LDR or "Light Dependent Resistor" is a resistor where the resistance decreases with the strength of the light.

The notation to state a resistor's value in a circuit diagram varies. One common scheme is the RKM code following IEC 60062. It avoids using a decimal separator and replaces the decimal separator with a letter loosely associated with SI prefixes corresponding with the part's resistance. For example, 8K2 as part
